

Footwear

Footwear At Fleet Feet Sports, we believe that quality shoes that fit you well and are appropriate for your foot type can be the most important piece of equipment for your running and walking endeavors.

We offer a wide selection of shoes to meet your various needs. To ensure we offer the best selection for our customers, we are constantly wear-testing and evaluating new styles and brands.

Through our footwear fit process we will assess your foot type and which styles of running and walking shoes are most appropriate for your biomechanics. Finding the right footwear solution is our mission.

Superfeet footbeds and Balega technical socks are typically often part of our footwear solution recommendation, as they are key tools to the proper fit.
